MARKAÐSSETNING HÖFUÐBORGARSVÆÐISINS Á ERLENDUM MÖRKUÐUM UNDIR VÖRUMERKINU REYKJAVÍK

SAMTÖK SVEITARFÉLAGA Á HÖFUÐBORGARSVÆÐINU

# Vörumerkið Reykjavík Markaðsrannsókn - sumar 2013

Unnið fyrir SSH, janúar 2014 Höfundur Dr. Friðrik Larsen

"Vörumerkið Reykjavík, Markaðsrannsókn - sumar 2013" er hluti af Sóknaráætlun fyrir höfuðborgarsvæðið 2013 sem er fjármagnað m.a. af ríkissjóði samkvæmt sérstökum samningi þar um. Samtök sveitarfélaga á höfuðborgarsvæðinu annast úrvinnslu og framkvæmd sóknaráætlunarinnar og bera ábyrgð á framgangi þeirra verkefna sem falla undir hana.

Innihald, skoðanir og niðurstöður eru á ábyrgð skýrlsuhöfundar.

### Inngangur

Rannsókn þessi er unnin fyrir Samtök sveitarfélaga á höfuðborgarsvæðinu (SSH). Rannsóknin byggir að mestu á niðurstöðum eigindlegrar skýrslu sem birt var í ágúst 2013 og fjallar um niðurstöður greininga á rýnihópum erlendra ferðamanna í Reykjavík. Markmið þeirrar rannsóknar var að fá innsýn í hvaða atriði skipta erlenda ferðamenn í Reykjavík mestu máli með tilliti til nokkurra skilgreindra lykilþátta er snéru að vinnu við vörumerki höfuðborgarsvæðisins. Niðurstöður eigindlegra rannsókna hafa ekki alhæfingargildi og því var lagt upp með að sannreyna niðurstöðurnar á stærri hópi til að gefa sem heildstæðasta mynd af viðfangsefninu. Sú innsýn sem rýnihóparnir gáfu í rannsóknarefnið nýttist vel við hönnun spurningalista og gerði áherslur hans markvissari.

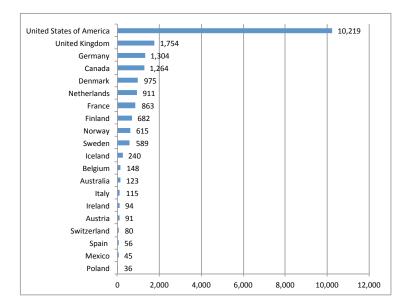

Spurningalisti var annars vegar sendur út til aðila sem höfðu skráð netfang hjá *Icelandair* og hins vegar *Iceland Naturally*. Samtals bárust 20.806 svör. Af þeim svöruðu 15.055 gegnum Icelandair og 6.129 gegnum Iceland Naturally. Í skýrslunni verða efnistök á þann hátt að fyrst verður greint frá þeim sem tóku þátt í rannsókninni og síðan frá niðurstöðum þeirra spurninga sem lagðar voru fyrir þátttakendur.

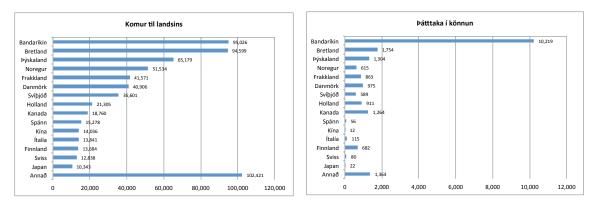

## Þátttakendur

Samtals svöruðu 20.806 einstaklingar frá 110 löndum útsendum spurningalista. Greining frá tuttugu fjölmennustu löndunum sést á mynd. Myndin sýnir að flestir sem svöruðu voru frá Bandaríkjunum. Þar á eftir fylgdu Bretar, Þjóðverjar og Kanadabúar. Einnig sést að mörg svör bárust frá Norðurlöndum; þar af voru Danir fjölmennastir.

Hlutfall þátttakenda sem svöruðu spurningalistanum endurspeglar ágætlega hlutfall erlendra ferðmanna sem komu til landsins árið 2012 ef frá er talið hátt hlutfall svara frá Bandaríkjunum. Þetta má sjá á myndunum hér að neðan þar sem komur til landsins eru bornar saman við þátttöku í könnuninni. Á myndunum má einnig sjá að fleiri svör vantar frá Sviss, Ítalíu, Spáni, Japan og Kína.

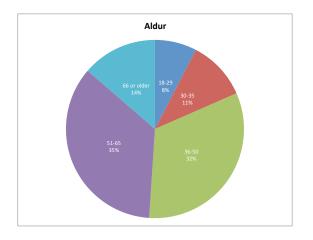

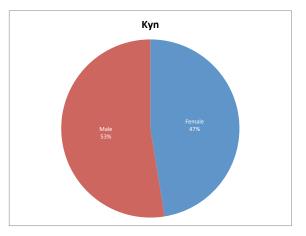

Á myndunum hér á eftir sést nánara niðurbrot. Sjá má að flestir þátttakendur eru á aldursbilunum 36 - 50 ára annars vegar og 51 - 56 hins vegar og að skipting milli kynja er nokkuð jöfn.

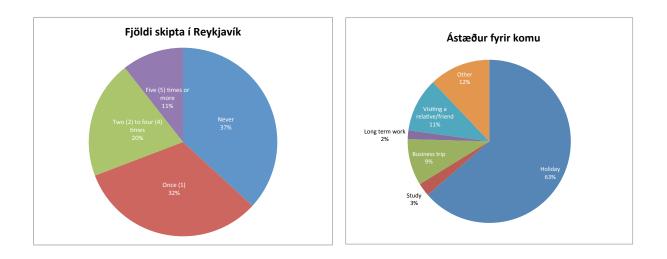

Ríflega þriðjungur hefur ekki komið til Íslands og um þriðjungur hefur komið einu sinni til landsins. 11% hafa komið fimm sinnum eða oftar til Íslands.

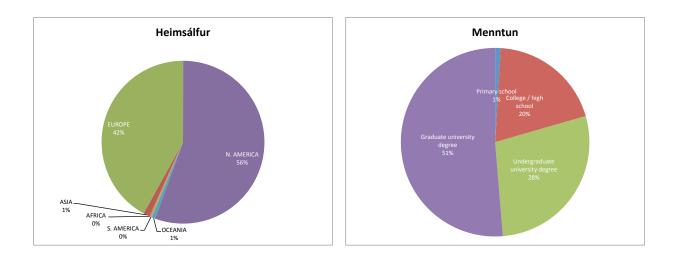

Þá má sjá að menntunarstig þátttakenda er hátt, en þrír af hverjum fjórum hafa lokið háskólagráðu og helmingur hefur lokið meistaragráðu.

# Niðurstöður

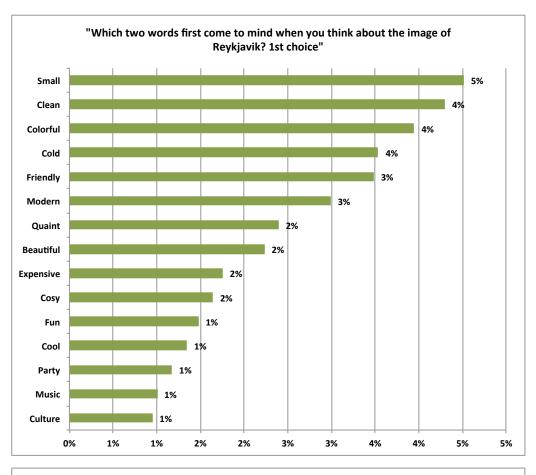

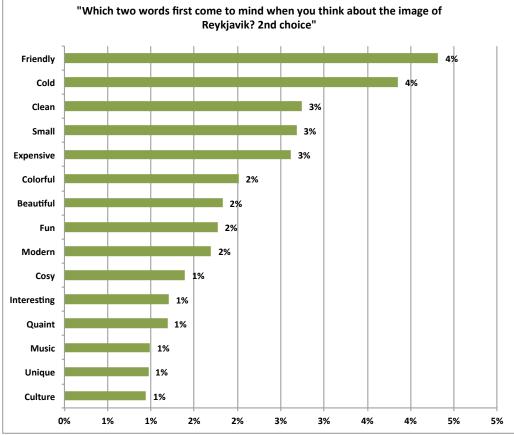

Í kaflanum verða niðurstöður kynntar. Framsetning er á þann hátt að fyrst verða kynntur niðurstöður opinna textaspurninga en í síðari hluta niðurstöður lokaðra textaspurninga.

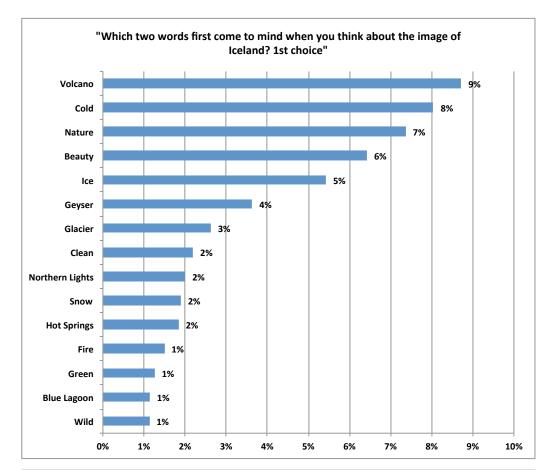

Allar lokaðar spurningar voru krosskeyrðar við bakgrunnsbreytur og eru birtar í töflum í skýrslunni. Athygli vakti að afar lítinn mun mátti merkja milli mismunandi breytna. Þ.e. þátttakendur svöruðu á áþekkan hátt, burtséð frá aldri, kyni eða menntun. Opnar spurningar voru ekki krosskeyrðar við bakgrunnsbreytur þar sem svör dreifðust mikið og ekki fundust tengsl.

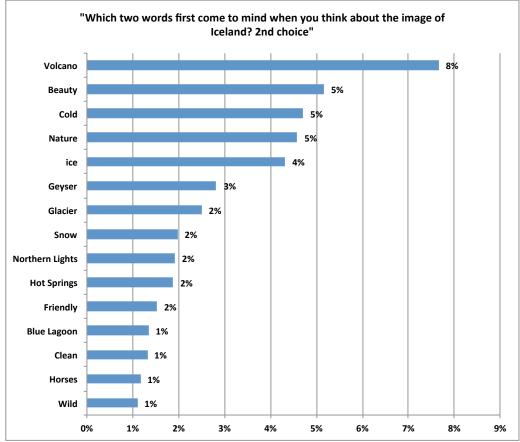

### Orð sem koma fyrst upp í hugann þegar hugsað er um ímynd Reykjavíkur

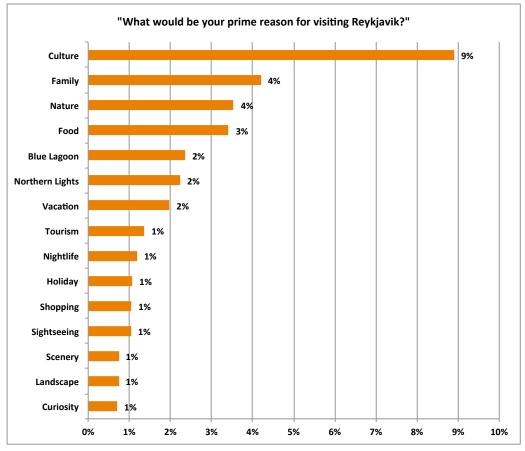

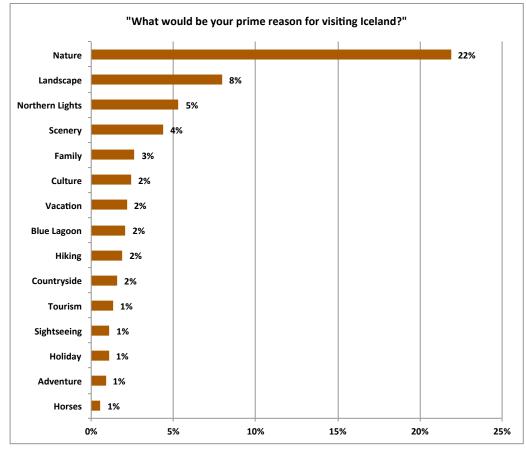

### Helstu ástæður fyrir komu til Íslands og Reykjavíkur

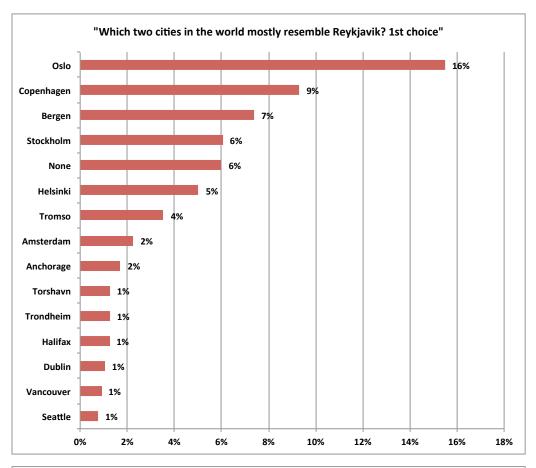

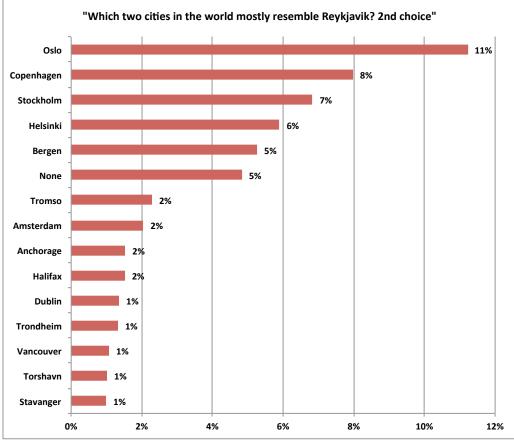

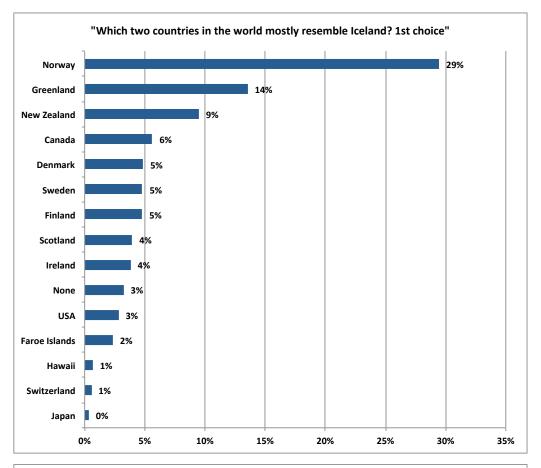

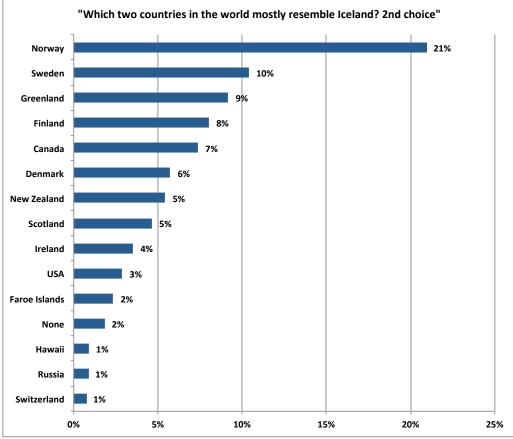

### Borgir sem mest svipar til Reykjavíkur

# Lönd sem mest svipar til Íslands

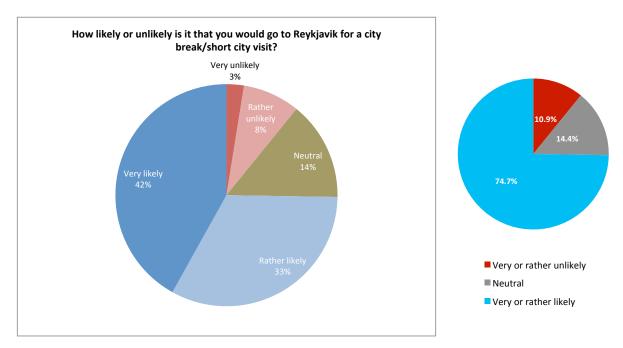

#### Borgarferðir til Reykjavíkur

Spurt var hversu líklegt eða ólíklegt það væri að þátttakendur myndu ferðast til Íslands gagngert til fara í stutta ferð til Reykjavíkur. Eðlilega töldu þátttakendur frá fjarlægum stöðum ólíklegra að þeir kæmu í styttri ferðir, en athygli vekur að ekki var munur á svörum þátttakenda frá öðrum heimsálfum. Þá voru minni líkur á að þátttakendur í eldri aldurshópum kæmu í styttri ferðir til landsins.

Spurt var um nokkra þætti og að hversu miklu marki þátttakendur teldu þá tengjast Reykjavík. Fjallað er um hvern og einn hér á eftir og eru þættirnir eftirfarandi:

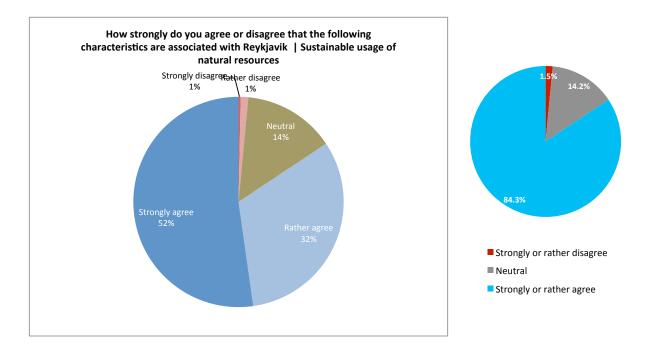

- Heitar laugar
- Sjálfbær nýting auðlinda
- Tenging við náttúru
- Tónlist
- Bókmenntir
- Menningarviðburðir
- Friður
- Reykjavík sem höfuðborg

Niðurstöður má sjá á átta blaðsíðum. Þær sýna að þátttakendur eru mjög eða fremur sammála því að heitar laugar, sjálfbær nýting auðlinda, tenging við náttúru, friður og Reykjavík sem höfuðborg séu þættir sem þeir tengja við Reykjavík. Einnig kemur fram að menningarviðburðir og tónlist eru einnig tengd borginni en jafnframt má sjá að þriðjungur þátttakenda er hlutlaus. Minnihluti tengir bókmenntir við borgina.

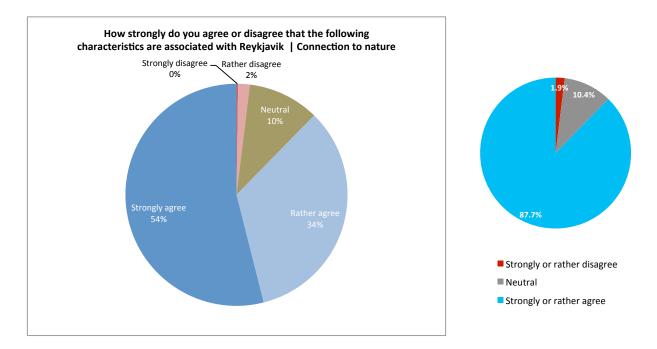

Ekki var um að ræða, svo heitið gæti, merkjanlegan mun milli þátttakenda um þá þætti sem spurt var um. Helsti munur á svörum tengist menningu því sjá má þegar rýnt er í krosskeyrslur að aldurshópurinn fimmtíu ára og eldri tengdi tónlist síður við borgina.

### Aðgengileiki

Þátttakendur voru beðnir að velja af flettilista þær borgir sem þeir töldu aðgengilegastar frá þeirra heimalandi. Þátttakendum rýnihópa varð tíðrætt um að auðveldara væri að ferðast til Reykjavíkur en þeir höfðu talið og því var skoðað hvaða borgir væru taldar aðgengilegastar.

#### Reykjavík er langt í burtu

Þá mátti sjá að þátttakendum frá Norður Ameríku virtist Reykjavík ekki merkjanlega lengra í burtu en þátttakendum frá Evrópu, en 44% þeirra voru fremur eða mjög ósammála fullyrðingum um að Reykjavík væri langt í burtu; 49% Evrópubúa, aftur á móti, fannst Ísland s.s. ekki svo langt í burtu. Eðlilega fannst þátttakendum frá fjarlægum heimsálfum lengra að ferðast til Íslands.

Þátttakendur voru jafnframt beðnir að segja hversu sammála eða ósammála þeir væru nokkrum þáttum er snéru að því hversu auðvelt væri að ferðast til Reykjavíkur.

Ekki kemur á óvart að þeim þátttakendum sem búa lengra í burtu, t.d. í Asíu og Eyjaálfu, fannst ólíklegast að heimsækja einungis Reykjavík, en athygli vekur að þátttakendur frá Norður Ameríku voru ekki mikið ólíklegri en Evrópubúar til að koma einungis til Reykjavíkur, eða 50% þeirra á móti 58% Evrópubúa.

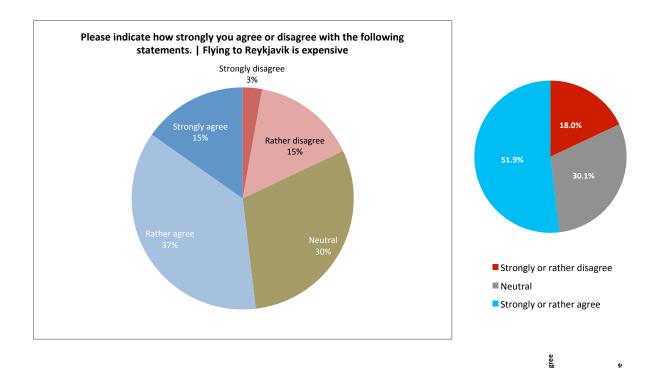

#### Það er dýrt að fljúga til Reykjavíkur

e

Ekki var merkjanlegur munur milli svara þeirra sem hafa komið til Reykjavíkur og þeirra sem ekki hafa komið. Eftir því sem fólk kom oftar, og því eldra sem það var, þeim mun ólíklegra var að því þætti dýrt að koma til Reykjavíkur.

### Reykjavík og Ísland sem sumar- og vetraráfangastaðir

Á heildina litið voru þátttakendur líklegri til að telja Reykjavík tilvalinn sumaráfangastað en vetraráfangastað. Þátttakendur frá Ameríku voru líklegri til að telja Reykjavík tilvalinn sumaráfangastað en þátttakendur frá Evrópu og Eyjaálfu voru líklegri til að vera sammála því að Reykjavík væri tilvalinn vetraráfangastaður.

Í rannsókninni skipti kyn yfirleitt ekki máli, en konur voru líklegri til að telja Reykjavík tilvalinn vetraráfangastað (59% kvenna voru frekar eða mjög sammála fullyrðingunni á móti 49% karla).

### Reykjavík og Ísland sem sumar- og vetraráfangastaðir

gree

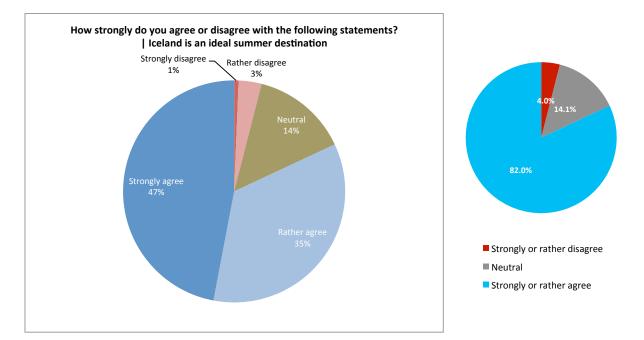

Ísland var talinn mun heppilegri sumaráfangastaður en vetraráfangastaður. Þegar spurt var um Ísland, voru þeir þáttakendur sem höfðu komið til Íslands líklegri til að telja Ísland tilvalinn sumaráfangastað (85% sammála eða mjög sammála fullyrðingunni) en þeir sem ekki höfðu komið (76% sammála eða mjög sammála fullyrðingunni). Þegar spurt var um Ísland sem tilvalinn vetraráfangastað, voru þátttakendur frá Bretlandi líklegastir til að taka undir þá fullyrðingu.

### Tenging lykilorða við Reykjavík – Uppröðun orðapara

Þátttakendum voru sýnd nokkur orðapör og þeir beðnir að meta hversu vel þau ættu við Reykjavík. Spurningin var svohljóðandi: "Please rank how well the following words (those on the left) apply to Reykjavik. As you approach the higher end of the ranking scale you are moving closer to the words opposite (the word on the right)."

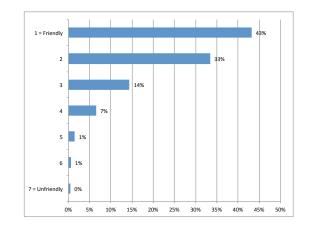

Orðapörin voru unnin upp úr greiningu á rýnihópum. Sjá má að þátttakendur voru fremur sammála um að valin orð ættu við Reykjavík. Borgin er talin ævintýraleg, listræn, hrein, öðruvísi, umhverfisvæn, vinaleg, landfræðilega virk, græn, litrík, örugg, róleg, í tísku, einstök, ósvikin, endurnærandi og örvandi.
